

Fatima Waqar, PGY2, Family Medicine

Dr. Fatima Waqar attained her medical degree from Pakistan. After moving to Canada, she has lived in Ontario, Quebec, British Columbia, and now in Saskatchewan. She enjoys working in the awesome community of North Battleford. Outside of medicine, you will see her eating all kinds of desserts or travelling with her husband.

Here are some of the reasons Fatima was chosen as Resident of the Month (As quoted from the nomination letter):

"She is extremely kind and supportive of her co-residents and continuously encourages each one of us to go above and beyond in our academic and personal goals. She was also co-chief resident for the PGY-1's and is someone the entire group can count on for answers to questions, whether it is regarding policy or wellness, we know Dr. Waqar will have the answer!"

"She prioritizes our wellness and advocates for our education, be it organizing a wellness day activity to helping choose a topic for sim-labs in addition to giving some great presentations during our academic half-days. You can always count on her for some one-on-one advice as well."

"Dr. Waqar has an affable personality and is always courteous towards patients, colleagues, and faculty. She is a brilliant resident and I whole-heartedly believe she is deserving of the Resident of the Month title."
