

**Navraj Dhaliwal, PGY5, Diagnostic Radiology**

I'm an R5 in Diagnostic Radiology and will be pursuing a fellowship in Interventional Radiology. Getting to teach juniors has been one of the most rewarding aspects of my senior years. I spend my free time with my amazing coresidents and enjoying the great food Saskatoon has to offer.

**Here are some of the reasons Navraj was chosen as Resident of the Month (As quoted from the nomination letter):**

*“Everyone who has met Nav is immediately impressed by his calming and confident demeanor. As an aspiring interventional radiologist, Nav demonstrates compassion when communicating with patients and takes the time to address their concerns.”*

*“Nav also steps up to challenges to ensure a smooth residency experience for the other residents. He acts as an effective liaison between residents and faculty to address resident concerns and ensure that they are resolved in a timely fashion.”*

*“As Chief Resident, Nav has shown strong leadership. Along with our previous chief resident, Nav helped to redesign our residency information website and developed a suggested curriculum for academic half-days.”*

**Congratulations, Navraj!**
