

Pregnant & Immunocompromised Residents during Pandemic

A message from PGME & RDoS

March 24, 2020

Voluntary Exemption from Clinical Rotations for Residents who are Pregnant or Immunocompromised

Programs are asked to please discuss with any pregnant or immunocompromised residents, that **voluntary exemption from clinical rotations is granted by PGME**. Alternate placements on other learning experiences (e.g.; research, teaching, provision of distance telehealth and other activities that would be unique to your program).

If you have questions, please contact PGME.
