

Osler Street House rental

This house is located two blocks from Royal University Hospital and University of Saskatchewan. It has a suite with two bedrooms on the main-floor and another two bedroom suite in the basement. Some past renters have rented both units as a 4 bedroom house. There is parking on a driveway and on street, a garage for storage only, a backyard and central air. Both units have its own fridge, stove, washer, dryer, and bathtub with shower. Basement suite was recently updated in 2018. It is not furnished. No smoking inside, and no pets. I am asking \$1150/mo. for either suite plus utilities. Please contact Frankie at flightfoot@shaw.ca if interested and would like more information or to view the property.

I have attached some pictures
